Re: *Ex Parte* Notice: *Terrestrial Use of the 2473-2495 MHz Band for Low-Power Mobile Broadband Networks* – IB Docket No. 13-213

Dear Ms. Dortch:

On October 14, 2015, on behalf of Globalstar, Inc., I spoke by telephone with Ruth Milkman, Chief of Staff to Chairman Tom Wheeler, regarding the above-captioned proceeding. I urged the Commission to take advantage of the opportunity this rulemaking creates to enable investment into new spectrum-based services and competition, based on sound engineering and compatible with existing services. I also discussed how the changes proposed in the NPRM in this proceeding build on the Commission's efforts over the last two decades to foster more efficient use of spectrum by both licensed and unlicensed users. Finally, I encouraged the Commission to consider its proposed rules in light of its traditional policy favoring license flexibility and an "all of the above" approach to spectrum use.

Pursuant to section 1.1206(b)(2) of the Commission's rules, 47 C.F.R. § 1.1206(b)(2), this *ex parte* notification is being filed electronically for inclusion in the public record of the above-referenced proceeding.

Respectfully submitted,

/s/ Blair Levin
